

Media information: NEVEON expands its molded foam production in the Czech Republic

The foam specialist NEVEON is enlarging its capacity in the molded foam field and for this purpose has purchased a property and appropriate production facilities in the Czech Republic.

Vienna, 06.09.2021. NEVEON is one of the world's leading, integrated foam companies and with its three business units Living & Care, Mobility and Specialties offers flexible, composite and technical foams for an enormous variety of uses, which range from the comfort and mobility fields to a multitude of special applications.

With the purchase in the town of Valašské Meziříčí in the eastern Czech Republic of a 52,000 m² premises, 18,700 m² of which consist of production facilities (including 1,300 m² of office space), as well as the appropriate manufacturing equipment, NEVEON is to expand its molded foam output and also lay the foundation stone for a new molded foam competence center. As Oliver Bruns, the NEVEON CEO, happily explains, "In particular, our new molded foam competence center in the Czech Republic is intended to benefit our mobility business unit and will round off our portfolio in the areas of acoustics and thermal solutions. It therefore represents an important milestone on our journey towards market leadership."
